The Mini series smartphone attachment thermal camera is designed to troubleshoot home, HVAC, and electrical problems. Equipped with a functional HIKMICRO viewer App for smartphones and tablets, enables you to get thermal imaging on your mobile devices. It offers focus-free wide-angle and manual focus two options. The manual focus lens provides a clear view of small objects such as electronic components or distant large objects like electrical or mechanical equipment from a safe distance. The focus-free wide-angle lens is ideal for quickly scanning walls, facades, and large objects.

MINI SERIES – PRODUCT FEATURES

Make your phone smarter with HIKMICRO thermal camera

Multiple Product Options: The Mini series offers focus-free and manual focus two options for wide uses.

01 Focus-free Wide Angle

A focus free lens with wide-angle provides a large field of view, which is great for large scale scanning. It is ideal for scanning walls, floors, and facades for items that typically present themselves on a larger scale including water leaks, insulation issues, and air infiltration.

02 Manual Focus

Equipped with a manual focus lens for inspection at various distances. Viewing small objects like electronic components, or viewing more distant objects like electrical or mechanical equipment that require a safe distance.

MINI SERIES – PRODUCT FEATURES

MOBILE APPLICATIONS - HIKMICRO VIEWER

WIRELESS ANALYSIS, REPORTING AND SHARING

HIKMICRO Viewer App is A powerful and intuitive APP designed for industrial thermal cameras. It allows thermal inspector to view and capture live streaming infrared video and still images from select HIKMICRO thermal imaging cameras using a mobile device. With the HIKMICRO Viewer, the thermal camera can be placed in an area and operated wirelessly from a distance - helping infrared detection work safely in hard-to-reach locations and harsh work environments. Streaming video and remote access also provide opportunities for decision-makers and others on the team to observe and collaborate during IR surveys. With a powerful reports function, you can efficiently generate reports for your clients in the field.

- Free license
- Scan and Connect Easily
- Download On-Device Images and Video to share
- Live View and Remote Control
- Advanced measurement and image analysis
- Quick reporting and sharing
- Firmware Upgrade
- After-sales contacts and online support services
- Turn screen rotation on and off
